Compensation for teachers, rent, school supplies, and other school-related expenses are funded by CSHA, a non-profit organization. The success of our school is a direct reflection of the hard work of our teachers, parents and volunteers of the Czech and Slovak community. Their enthusiasm is the engine behind the success of our school. Thank you all for everything you do!

Volunteering: We feel that everyone needs to help. Please consider volunteering, and help continue building a strong school and community. Also, we would appreciate any help throughout the school year with finding interesting events connected to Czech or Slovak culture. If you know any Czechs or Slovaks who have an interesting hobby, a profession, or an accomplishment and would be willing to come to our school and speak about it to our children, please let us know.

Parent Involvement: *Parent support and involvement plays the most important role* in reinforcing what students learn at school and in promoting active Czech or Slovak speaking and interest. It is critical for **parents to speak, and read** in either Czech or Slovak to their children at home as often as possible. The 2 hour per week school sessions can provide support and develop positive relationship towards the language, culture and traditions, but it is not enough for our children to become fluent speakers of Czech or Slovak. We encourage all of our parents to communicate daily in Czech or Slovak with their children.
